Please be advised that the City of San Diego Solid Waste Local Enforcement Agency (LEA) will be holding an informational public meeting in accordance with Public Resource Code Section 44004 regarding a revised Solid Waste Facility Permit for Sycamore Landfill, Incorporated SWIS Number 37-AA-0023. The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites within the City of San Diego.

Description of Project and LEA's Determination

The Sycamore Landfill is requesting a Solid Waste Facility Permit revision to increase the facility size from 491 acres to 603 acres, to increase the permitted waste footprint from 324 acres to 349.2 acres, and to increase the maximum height of the landfill elevation from 883 feet above mean sea level (amsl) to 1050 feet amsl. In addition, the Sycamore Landfill is requesting to increase the maximum daily waste tonnage from 3,965 tons per day (tpd) to 5,000 tpd and to increase traffic from 620 municipal solid waste (MSW) tickets per day to 869 MSW tickets per day. Additionally, the SDGE transmission lines traversing the landfill will be relocated. The LEA has accepted the permit revision application package as complete on March 19, 2015 and will be drafting a proposed Solid Waste Facility Permit for concurrence or denial by CalRecycle.

Where a copy of application can be reviewed

A copy of the approved application is available for public review by appointment in the LEA office located at 1010 Second Avenue, 6<sup>th</sup> floor, San Diego, CA 92101.
